

Dear FCC,

The idea of expanding the LPFM services while hurting the existing FM service is not well thought out. Stations such as K-LOVE will be hurt. I am a K-LOVE listener and have been for nearly 10 years. K-LOVE offers a family-friendly service that my family can listen to without the fear of DJ's talking about sex, breasts, being drunk and the hangover they had, ect. I for one do not want my kids to listen to that garbage. They will learn about it soon enough as they grow up. K-LOVE offers a great alternative to regular FM broadcast. Please think of American families who want to protect their families and do not expand the LPFM services.
